# American Journal of Physiology: Renal, Fluid and Electrolyte Physiology

**No. 1. JANUARY 1990**

## BRIEF REVIEW

Effects of dietary interventions on glomerular pathophysiology
*J. R. Diamond* F1

---

Characteristics of apical Cl-$HCO_3$ exchanger of bicarbonate-secreting cells in turtle bladder
*O. F. Kohn, P. P. Mitchell, and P. R. Steinmetz* F9

Collecting tubule adaptation to respiratory acidosis induced in vivo
*M. E. Laski and N. A. Kurtzman* F15

Glomerular hemodynamics and $\alpha_2$-adrenoreceptor stimulation: the role of renal nerves
*S. C. Thomson, B. J. Tucker, F. B. Gabbai, and R. C. Blantz* F21

Aromatic L-amino acid decarboxylase activity along the rat nephron
*M. Hayashi, Y. Yamaji, W. Kitajima, and T. Saruta* F28

Brain pH in acute isocapnic metabolic acidosis and hypoxia: a $^{31}$P-nuclear magnetic resonance study
*S. Adler, V. Simplaceanu, and C. Ho* F34

Acute cyclosporine-induced renal vasoconstriction: lack of effect of theophylline
*P. C. Churchill, N. F. Rossi, M. C. Churchill, A. K. Bidani, and F. D. McDonald* F41

Fluorescein transport in isolated proximal tubules in vitro: epifluorometric analysis
*L. P. Sullivan, J. A. Grantham, L. Rome, D. Wallace, and J. J. Grantham* F46

Influence of $Na^+$ intake on dopamine-induced inhibition of renal cortical $Na^+$-$K^+$-ATPase
*I. Seri, B. C. Kone, S. R. Gullans, A. Aperia, B. M. Brenner, and B. J. Ballermann* F52

Direct visualization of effects of endothelin on the renal microvasculature
*R. Loutzenhiser, M. Epstein, K. Hayashi, and C. Horton* F61

Distal tubular acidification in the remnant kidney
*R. T. Kunau, Jr. and K. A. Walker* F69

Net acid transport by isolated perfused inner medullary collecting ducts
*S. M. Wall, J. M. Sands, M. F. Flessner, H. Nonoguchi, K. R. Spring, and M. A. Knepper* F75

Role of ANG II in eicosanoid production by isolated glomeruli from rats with bilateral ureteral obstruction
*H. Yanagisawa, J. Morrissey, A. R. Morrison, M. L. Purkerson, and S. Klahr* F85

Arterial pressure effects on preglomerular microvasculature of juxtamedullary nephrons
*P. K. Carmines, E. W. Inscho, and R. C. Gensure* F94

Relationship between intracellular pH and ammonia metabolism in LLC-$PK_1$ cells
*A. Sahai, E. Laughrey, and R. L. Tannen* F103

Thromboxane $A_2$ and prostaglandin endoperoxide analogue effects on porcine renal blood flow
*M. Cirino, H. Morton, C. MacDonald, J. Hadden, and A. W. Ford-Hutchinson* F109

Radiocontrast medium-induced declines in renal function: a role for oxygen free radicals
*G. L. Bakris, N. Lass, A. O. Gaber, J. D. Jones, and J. C. Burnett, Jr.* F115

Calcitonin gene-related peptide: effects on renal arteriolar tone and tubular cAMP levels
*R. M. Edwards and W. Trizna* F121

Differing actions of dietary protein and enalapril on renal function and proteinuria
*F. N. Hutchison, V. I. Martin, H. Jones, Jr., and G. A. Kaysen* F126

Glomerular hemodynamic alterations during renal nerve stimulation in rats on high- and low-salt diets
*B. J. Tucker, O. W. Peterson, K. A. Munger, J. E. Bird, M. Mitchell, J. C. Pelayo, and R. C. Blantz* F133

Hypothalamic $Na^+$-$K^+$-ATPase inhibitor characterized in two-sided liposomes containing pure renal $Na^+$-$K^+$-ATPase
*B. M. Anner, H. G. Rey, M. Moosmayer, I. Meszoely, and G. T. Haupert, Jr.* F144

In vivo osmoregulation of aldose reductase mRNA, protein, and sorbitol in renal medulla
*B. D. Cowley, Jr., J. D. Ferraris, D. Carper, and M. B. Burg* F154

Effects of endothelium-derived relaxing factor and nitric oxide on rat mesangial cells
*P. J. Shultz, A. E. Schorer, and L. Raij* F162

Effect of protein intake on the autoregulation of renal blood flow
*B. M. Murray and G. P. Brown* F168

Cytosolic free calcium regulation in renal tubules from spontaneously hypertensive rats
*W. R. Jacobs, C. M. Ferrari, P. C. Brazy, and L. J. Mandel* F175

Attenuation of hypermetabolism in the remnant kidney by dietary phosphate restriction in the rat
*J. I. Shapiro, D. C. H. Harris, R. W. Schrier, and L. Chan* F183

Native tubular fluid attenuates ANF-induced inhibition of tubuloglomerular feedback
*D. M. Pollock and W. J. Arendshorst* F189

Vasopressin and mineralocorticoid increase apical membrane driving force for $K^+$ secretion in rat CCD
*J. A. Schafer, S. L. Troutman, and E. Schlatter* F199

Cyclosporine augments renal but not systemic vascular reactivity
*M. D. Garr and M. S. Paller* F211

**SPECIAL COMMUNICATIONS**

Novel recordings of renal sympathetic nerve activity in conscious fetal sheep and newborn lambs
*F. G. Smith, J. M. Klinkefus, U. C. Kopp, and J. E. Robillard* F218

**No. 2. FEBRUARY 1990**

**BRIEF REVIEW**

PTH receptor coupling to phospholipase C is alternate pathway of signal transduction in bone and kidney
*R. Dunlay and K. Hruska* F223

Xanthine oxidase: evidence against a causative role in renal reperfusion injury
*M. Joannidis, G. Gstraunthaler, and W. Pfaller* F232

Apical membrane vesicles of ADH-stimulated toad bladder are highly water permeable
*H. W. Harris, Jr., J. S. Handler, and R. Blumenthal* F237

A potassium channel in the apical membrane of rabbit thick ascending limb of Henle's loop
*W. Wang, S. White, J. Geibel, and G. Giebisch* F244

Cardiovascular and renal actions of endothelin: effects of calcium-channel blockers
*L. Cao and R. O. Banks* F254

Inhibition of rat mesangial cell growth by heparan sulfate
*G. C. Groggel, G. N. Marinides, P. Hovingh, E. Hammond, and A. Linker* F259

Effects of hypertonicity on ADH-stimulated water permeability in rat inner medullary collecting duct
*S. P. Nadler* F266

Chloride channels in the apical membrane of cortical collecting duct cells
*D. B. Light, E. M. Schwiebert, G. Fejes-Toth, A. Naray-Fejes-Toth, K. H. Karlson, F. V. McCann, and B. A. Stanton* F273

Atrial natriuretic peptide-induced changes in renal prostacyclin production in ureteral obstruction
*S. I. Himmelstein, T. M. Coffman, W. E. Yarger, and P. E. Klotman* F281

Origin of dopamine in the rat adrenal cortex
*N. T. Buu and C. Lussier* F287

Cell swelling increases intracellular free [Ca] in cultured toad bladder cells
*S. M. E. Wong, M. C. DeBell, and H. S. Chase, Jr.* F292

NEM-sensitive ATPase activity in rat nephron: effect of metabolic acidosis and alkalosis
*S. Sabatini, M. E. Laski, and N. A. Kurtzman* F297

Role of hormonal factors in plasma K alterations in acute respiratory and metabolic alkalosis in dogs
*H. Suzuki, A. Hishida, K. Ohishi, M. Kimura, and N. Honda* F305

Proline transport by brush-border membrane vesicles of lobster antennal glands
*R. D. Behnke, R. K. Wong, S. M. Huse, S. J. Reshkin, and G. A. Ahearn* F311

D-Penicillamine and the transport of L-cystine by rat and human renal cortical brush-border membrane vesicles
*T. J. Furlong and S. Posen* F321

Influence of acute hyponatremia on renal ammoniagenesis in dogs with chronic metabolic acidosis
*M. L. Halperin and C. Bun-Chen* F328

Stimulation by thyroid hormone of $Na^+$-$H^+$ exchange activity in cultured opossum kidney cells
*K. Yonemura, L. Cheng, B. Sacktor, and J. L. Kinsella* F333

Membrane crosstalk in the mammalian proximal tubule during alterations in transepithelial sodium transport
*J.-Y. Lapointe, L. Garneau, P. D. Bell, and J. Cardinal* F339

Ouabain-induced lethal proximal tubule cell injury is prevented by glycine
*J. M. Weinberg, J. A. Davis, M. Abarzua, R. K. Smith, and R. Kunkel* F346

Effect of pH on $Na^+$-dependent phosphate transport in renal outer cortical and outer medullary BBMV
*G. A. Quamme* F356

Sympathetic modulation of renal autoregulation by carotid occlusion in conscious dogs
*P. B. Persson, H. Ehmke, B. Nafz, and H. R. Kirchheim* F364

Intracellular pH regulation in rabbit S3 proximal tubule: basolateral Cl-$HCO_3$ exchange and Na-$HCO_3$ cotransport
*N. L. Nakhoul, L. K. Chen, and W. F. Boron* F371

NaCl modulates captopril effects on glomerular prostaglandin synthesis and glomerular filtration
*M. Rathaus, E. Podjarny, A. Pomeranz, and J. Bernheim* F382

Proton gradient-dependent renal transport of glycine: evidence from vesicle studies
*H. Røigaard-Petersen, H. Jessen, S. Mollerup, K. E. Jørgensen, C. Jacobsen, and M. I. Sheikh* F388

Direct effects of endothelin in the rat kidney
*T. Katoh, H. Chang, S. Uchida, T. Okuda, and K. Kurokawa* F397

Morphological and functional comparisons of normal and hypertrophied kidneys of adult domestic fowl (*Gallus gallus*)
*C. M. Gregg and R. F. Wideman, Jr.* F403

Angiotensin II control of the renal microcirculation in rats with reduced renal mass
*J. C. Pelayo, A. H. Quan, and P. F. Shanley* F414

Luminal calcium regulates potassium transport by the renal distal tubule
*M. D. Okusa, H. Velázquez, D. H. Ellison, and F. S. Wright* F423

## SPECIAL COMMUNICATIONS

Quantitation of total carbon dioxide in nanoliter samples by flow-through fluorometry
*R. A. Star* F429

HeLa cells express cAMP-inhibitable sodium-dependent phosphate uptake
*J. R. Raymond, J. P. Middleton, and V. W. Dennis* F433

Synthesis and characterization of a new fluorescent probe for measuring potassium
*K. Golchini, M. Mackovic-Basic, S. A. Gharib, D. Masilamani, M. E. Lucas, and I. Kurtz* F438

No. 3. MARCH 1990

$Na^+$-$H^+$ antiporter and $Na^+$-$(HCO_3^-)_n$ symporter regulate intracellular pH in mouse medullary thick limbs of Henle
*D. Kikeri, S. Azar, A. Sun, M. L. Zeidel, and S. C. Hebert* F445

Feedback responses during sequential inhibition of angiotensin and thromboxane
*W. J. Welch and C. S. Wilcox* F457

Brain natriuretic peptide: interaction with renal ANP system
*M. Gunning, B. J. Ballermann, P. Silva, B. M. Brenner, and M. L. Zeidel* F467

Atrial natriuretic peptide differentially modulates T- and L-type calcium channels
*R. T. McCarthy, C. M. Isales, W. B. Bollag, H. Rasmussen, and P. Q. Barrett* F473

Influence of acute and chronic respiratory alkalosis on preexisting chronic metabolic alkalosis
*N. E. Madias, J. J. Cohen, and H. J. Adrogué* F479

Concentration dependence of urea and thiourea transport in rat inner medullary collecting duct
*C.-L. Chou, J. M. Sands, H. Nonoguchi, and M. A. Knepper* F486

Single-nephron adaptations to partial renal ablation in the dog
*S. A. Brown, D. R. Finco, W. A. Crowell, D. C. Choat, and L. G. Navar* F495

Amino acid transport: microinfusion and micropuncture of Henle's loops and vasa recta
*W. H. Dantzler and S. Silbernagl* F504

Hormonal interactions with the proximal $Na^+$-$H^+$ exchanger
*F. A. Gesek and A. C. Schoolwerth* F514

Combined intrarenal blockade of the renin-angiotensin system in the conscious dog
*H. M. Siragy, N. L. Howell, M. J. Peach, and R. M. Carey* F522

Effects of apical membrane $Cl^-$-formate exchange on cell volume in rabbit proximal tubule
*L. Schild, P. S. Aronson, and G. Giebisch* F530

Tubuloglomerular feedback responses during peritubular infusions of calcium channel blockers
*K. D. Mitchell and L. G. Navar* F537

Parathyroid hormone regulation of cytosolic $Ca^{2+}$ in rat proximal tubules
*C. R. Filburn and S. Harrison* F545

Inhibition of tubuloglomerular feedback during adenosine$_1$ receptor blockade
*J. Schnermann, H. Weihprecht, and J. P. Briggs* F553

Whole-cell currents in rat cortical collecting tubule: low-Na diet increases amiloride-sensitive conductance
*G. Frindt, H. Sackin, and L. G. Palmer* F562

$Ca^{2+}$-dependent inhibition of sodium transport in rabbit cortical collecting tubules
*G. Frindt and E. E. Windhager* F568

Mechanism of aluminum-induced calcium efflux from cultured neonatal mouse calvariae
*S. M. Sprague and D. A. Bushinsky* F583

Effects of vasoactive agents on uptake of immunoglobulin G complexes by mesangial cells
*P. C. Singhal, A. Santiago, J. Satriano, R. M. Hays, and D. Schlondorff* F589

$MPP^+$ is transported by the $TEA^+$-$H^+$ exchanger of renal brush-border membrane vesicles
*K. D. Ayer Lazaruk and S. H. Wright* F597

Role of the kidney in primary hypertension: a renal transplantation study in rats
*R. Rettig, C. Folberth, H. Stauss, D. Kopf, R. Waldherr, and T. Unger* F606

Glomerulotubular balance in a mathematical model of the proximal nephron
*A. M. Weinstein* F612

Tubuloglomerular feedback and blood flow autoregulation during $DA_1$-induced renal vasodilation
*D. M. Pollock and W. J. Arendshorst* F627

Dual interactions between $\alpha_2$-adrenoceptor agonists and the proximal $Na^+$-$H^+$ exchanger
*F. A. Gesek and J. W. Strandhoy* F636

Effects of a kinin antagonist on renal function in rats
*M. Nakagawa, J. M. Stewart, R. J. Vavrek, and A. Nasjletti* F643

Identification of individual renocortical cells that secrete renin
*R. M. Carey, K. M. Geary, M. K. Hunt, S. P. Ramos, M. S. Forbes, T. Inagami, M. J. Peach, and D. A. Leong* F649

Autoregulation and tubuloglomerular feedback in juxtamedullary glomerular arterioles
*D. Casellas and L. C. Moore* F660

Potassium load prevents the decrease of GFR induced by captopril in sodium-depleted rats
*M. Rathaus, A. Pomeranz, E. Podjarny, and J. Bernheim* F670

Impaired renal response to a meat meal in insulin-dependent diabetes: role of glucagon and prostaglandins
*P. Fioretto, R. Trevisan, A. Valerio, A. Avogaro, M. Borsato, A. Doria, A. Semplicini, D. Sacerdoti, S. Jones, E. Bognetti, G. C. Viberti, and R. Nosadini* F675

Renal actions of atrial natriuretic factor: modulation of effect by changes in sodium status and aldosterone
*N. A. Yates, J. P. Coghlan, G. J. Murphy, B. A. Scoggins, and J. G. McDougall* F684

$[Ca^{2+}]_i$ rises via G protein during regulatory volume decrease in rabbit proximal tubule cells
*M. Suzuki, K. Kawahara, A. Ogawa, T. Morita, Y. Kawaguchi, S. Kurihara, and O. Sakai* F690

Proliferation and intracellular pH in cultured proximal tubular cells
*S. H. Larsson, Y. Fukuda, S. Kölare, and A. Aperia* F697

A theoretical approach to analyze pressure equilibria in the interstitium
*M. Gilányi and A. G. B. Kovách* F705

Role of xanthine oxidase in ischemia/reperfusion injury
*S. L. Linas, D. Whittenburg, and J. E. Repine* F711

Glomerular effects of angiotensin II require intrarenal factors
*T. B. Wiegmann, M. L. MacDougall, and V. J. Savin* F717

Chronic hyperinsulinemia and blood pressure regulation
*J. E. Hall, T. G. Coleman, H. L. Mizelle, and M. J. Smith, Jr.* F722

Volume regulation following $Na^+$ pump inhibition in CCT principal cells: apical $K^+$ loss
*K. Strange* F732

Effect of angiotensin II and norepinephrine on isolated rat afferent and efferent arterioles
*B. H. Yuan, J. B. Robinette, and J. D. Conger* F741

cAMP-stimulated rise of $[Ca^{2+}]_i$ in rabbit connecting tubules: role of peritubular Ca
*J. E. Bourdeau and B. K. Eby* F751
